

Healthcare innovation

Driving discoveries in medicine. Defining the future of care.

Colorado Aerotropolis is a catalyst for revolutionary advancements in medicine—opening new possibilities for health technology, nutrition, patient wellness and more.

Bring your company to a hub of world-class healthcare systems, practitioners, researchers, creators and entrepreneurs.

Our region is a hot spot of highly rated medical schools, top-ranked hospitals, renowned research facilities and well-supported bioscience incubators focused on health tech innovation. By collaborating across industries and engaging with emerging data and technology—including artificial intelligence (AI) and advanced equipment design—our specialized healthcare workers are developing world-shifting technologies, practices, systems and services every day.

With direct routes to major domestic and international health centers, healthcare innovators at Colorado Aerotropolis can access the connections, resources and research needed to create a healthier future for the world.

Join the growing health and wellness cluster, representing almost one in every nine jobs in the region.¹

COLORADO
aerotropolis

We're building on the momentum of ...

A national hotspot of health tech innovation

Colorado is home to many leading healthcare systems, including the University of Colorado Anschutz Medical Campus, Fitzsimons Innovation Community, UCHealth University of Colorado Hospital, Children's Hospital Colorado, Rocky Mountain Regional Veterans Affairs (VA) Medical Center, UCHealth CARE Innovation Center and University of Colorado School of Medicine. These organizations are an innovative force in healthcare.

Top-ranked research talent

Our region saw the second-highest rate of growth in life sciences jobs in the country over the last five years—bringing our market into the top 10 for national research talent. The strength of the industry in the United States continues to grow: In 2022, research professions increased by 3.1% to a record 545,000 specialists.²

Record-breaking healthcare funding

In 2022, Colorado raised more than \$1.6 billion and pulled in more than \$550 million in federal grants.³ In the same year, Colorado placed among the top 20 states for NIH funding.¹ Here, purpose-driven organizations can fund their missions in our thriving, \$75 billion startup ecosystem.⁴

Direct routes to major healthcare hubs around the world, through Denver International Airport

Denver International Airport (DEN) served 69.3 million passengers in 2022, making it the third busiest airport in the world.⁵ With 23 airlines, 181 nonstop destinations in the United States and 28 nonstop international destinations as of December 2023^{6,7} DEN offers immediate access to global multimodal transport networks and supply chains—and connects industry leaders, manufacturers and innovators with the global community.

Colorado Aerotropolis is base camp for your business' next big idea.

For visionaries, manufacturers, industry heavyweights and organizations that seek to move the world forward, Colorado Aerotropolis is the HQ for powerful global change.

Focusing on the industries of tomorrow:

- Industry 4.0 makers
- Future transport
- Agricultural innovation
- Healthcare innovation
- Resource sustainability

Go from breaking ground to making breakthroughs.
